

Digital Volume Controller, 8 Button Remote Control

CAT NO. **HNVC03, HNRC01**

HPM's Audio Distribution System delivers audio from 4 different sources to 4 different zones of a home, public building or commercial space, simultaneously. When connected to the Audio Distribution module (HNAM02), the Digital Volume Controller (HNVC03) enables source select and volume control functions to be performed in each output location. Treble and bass level adjustments can be performed via the controller for the enhancement of the listening experience. A whole-house broadcast function is conveniently built into the Controller and can be activated by pushing the 'Broadcast' button and speaking into the wall unit.

- Performs volume control and source select functions
- 10 segment LED level indicator
- Performs treble and bass adjustments
- Broadcast and mute capabilities
- Built-in IR receiver

Accessories supplied:

- 1 x Remote Control (HNRC01)

HNRC01 is also sold separately as spare or replacement

| | |
