Features

- Mains switch for surface mounting
- Featuring heavy-duty, double-break silver contacts, this device is equipped with tunnel-type clamping terminals on both the line and load sides
- Switches are M rated to AS3133 indicating their suitability for use on electric motors
- Front entry main switch
- Mounting holes: top right and bottom left corners. 60 x 16mm mounting centres

Overview

The HPM Mains Switch effectively turns the power on and off, ensuring safe isolation and control of the electrical current. It features heavy-duty, double-break silver contacts for enhanced durability and performance. Additionally, it includes a provision for inserting a padlock (up to Ø5mm) to ensure a lockable means of isolation, providing an extra layer of safety and security.
