- Ideal for construction sites and workshops.
- Total loading: 10A 2400V & 15A 3600V

Overview

The HPM Electrosafe Power Centre is designed for ultimate safety, featuring a built-in RCBO safety switch that cuts power in 30 milliseconds to protect against electrocution. It also includes a built-in MCB for localized overload protection. With 2 USB ports (Type A and C), you can stay fully charged onsite. This power centre combines advanced safety features and modern convenience, making it an essential addition to your toolkit.
