HPM

HPM PIR 180° Wall Mount Motion Sensor White

REF. 630/3

3 Year Warranty

> [Visit product online](#)

Features

- 180° Field of view
- Energy Saving - Turns On Lights Only When Required
- Adjustable time delay & lux level ensures activation only when necessary, enhancing control and efficiency
- 12 metre detection range
- IP44 rating

User Recommendations

- Ideal for hallways, walk-in wardrobes & garages
- Can be used with both Outdoor and Indoor Lights

Overview

HPM Light Patrol Security Sensor incorporates a passive infrared detector that reacts instantly to body heat and movement. When it senses a person (at a distance of up to 12 meters) it acts as a switch to turn the lights on to which it is connected. When body heat and movement are no longer detected, the lights switch off after a period of time (adjustable). A builtin photocell deactivates the motion sensor during daylight hours if required.

Quality You Can Trust

Installation

- Provides security convenience, security and safety

Convenient Functionality

- Built-in manual override function for times when you wish the light to stay on regardless of motion
