Features

- Designed for use with HPM LED downlights with a 90(DIA)mm cut-out
- Covers existing downlight ceiling hole cut-outs
- Retained with stainless steel springs
- LEP150WE suitable for holes up to 150(DIA)mm

Overview

The HPM 150mm Downlight Conversion Plate in White is the fastest and most cost-effective solution for replacing old downlights without the need for plastering or painting. Suitable for HPM downlights with a 90mm cut-out, it easily covers existing hole cut-outs from 120-150mm in diameter, ensuring a seamless and hassle-free installation.

Quality You Can Trust

Installation

- Easy 2-step installation, 1 - cover existing hole with conversion plate, 2 - Mount HPM 90(DIA)mm cut-out downlight onto the conversion plate
