- Beam angle of 113° with adjustable head to change direction of light
- Easy D.I.Y. installation with 3-pin plug and 50cm lead
- IP65 housing for weatherproof

Overview

The HPM Fina LED 20W Cool White Flood Light is perfect for illuminating small to medium areas such as driveways, backyards and play areas. Its modern aluminum construction ensures durability, while the wall or ceiling mounting bracket allows for quick installation. The adjustable head lets you direct the light as needed and the tempered glass provides extra safety. This small but powerful light is ideal for areas that are difficult to see with traditional lighting options, offering both reliability and peace of mind.

Quality You Can Trust

Installation

- Wall or ceiling mount bracket included
