- 2 wire
- On-board programming allows LED indicator to be red or blue
- On- board programming allows you to choose if LED is off or dimmed when lighting is not activated

Overview

The HPM Vivo™ 2-Wire Push Button Switch Mechanism is a versatile replacement component that lets you customise your switch plate to meet your preferences. Perfect for those seeking a technology-friendly lighting solution, it features a soft-touch electronic push button and onboard programming. Users can select LED indicator colors (red or blue) and adjust whether the LED remains off or dimmed when the lights are off. With its straightforward installation, this mechanism combines functionality and convenience seamlessly.

Quality You Can Trust

Convenient Functionality

- Compatible with HPM VIVO Blank plates or as a replacement mechanism for grid plates (sold separately)
