Features

- 12 Volt Transformer
- Max Rating 60VA
- Lights can be dimmed when paired with HPM trailing edge Dimmers
- Short Circuit and Overload Protection

Overview

The HPM Cougar Dimmable Electronic Downlight Transformer is ideal for users seeking versatile lighting solutions for MR16 globes and downlights. It is compatible with both halogen and LED globes and its dimmable feature allows for adjustable light intensity when used with an HPM trailing edge switch. This transformer ensures adaptable and efficient lighting control for various environments.
